Automatic Adrenaline Attraction™ Opening in Central Florida

ORLANDO, FLORIDA – (December 8, 2014) – Machine Gun America™, Orlando’s first Automatic Adrenaline Attraction™, offers guests an exciting way to experience firearms in a safe, secure, state-of-the-art environment designed to give anyone, regardless of their experience level, the thrill of a lifetime. MGA™ also offers high-level premier ‘military grade’ training simulators that entertain up to four guests at a time, plus full immersion gaming experiences with surround sound.

Slated to open its doors to the public December 20, 2014, MGA’s™ first location will be in Kissimmee, Florida on Highway 192 near the Old Town Amusement Center and will offer several high-tech activities. MGA™ is not a gun range, and guests cannot bring their own firearms, it is an attraction experience only. Guests must be 13 years of age or older and no alcohol will be sold, served or permitted on the premises. MGA™ initially will create an estimated 25 highly skilled jobs in Osceola County.

“There will be ten live experience range lanes, each manned by a highly trained and qualified Range Safety Officer,” said Wes Doss, nationally recognized firearm trainer and now MGA’s™ safety and training director. “This is unlike any other experience in the country. The live shooting experiences will include themed packages featuring some of the most famous firearms from around the world,” he added.

Themes include, Special Ops Red White & Blue, “007”, Western Shootout, The Walking Dead Big Screen Legends and many more. The simulators will have more than 20 different scenarios to select. For more information visit www.machinegunamerica.com.
